WERT14

Building Valuation. Simple, Fast & Digital.

Wert14 is a powerful digital tool for **precise building valuation**, designed for **insurers, agencies, and brokers**. Wert14 analyses up-to-date land registry data, official 3D building data, and aerial images of over 51 million buildings in Germany to provide reliable and objective insurance values. By combining cutting-edge technology with recognized calculation methods, Wert14 enables fast and well-founded valuations.

Digital Building Valuation with Wert14

- ✓ Automated determination of insurance sums (*Value 1914, Value 2010, regionalized and non-regionalized insurance values as of the valuation date*)
- ✓ Optimized and efficient valuation process
- ✓ User-friendly handling
- ✓ High acceptance among customers
- ✓ Professional BuildingReport
- ✓ Reduction of liability risks
- ✓ More objectivity and transparency for all parties involved
- ✓ Underinsurance waiver with more than 30 insurers

The Wert14 BuildingReport

The **Wert14 BuildingReport** is a professional document containing all valuation results and characteristics of the assessed buildings, including a map view, aerial image, and building outlines.

Simple Processes – Fast Results

All you need to do is enter an address. Thanks to our user-friendly interface and ultra-modern calculation model, you receive your individual BuildingReport in no time.

Less Effort – More Security

With Wert14, you significantly reduce your valuation workload while benefiting from greater security. Relevant building dimensions are pre-stored and can be individually adjusted if needed.

Objective Building Valuation

Wert14 utilizes official 3D building data, land registry information, and aerial images. Using recognized calculation methods, the insurance sum is determined automatically and objectively.

Underinsurance Waiver

Wert14 ensures that the insurance sum and insured value match, which means that many insurers do not determine underinsurance. This provides clear advantages in claims settlement and ensures a transparent basis for all parties involved.
